Allocation Steps

ADMINISTRATION

a. Determine the hours charged to each program.

- b. Determine the percentage of direct hours charged to each program to the hours charged to all programs.
- $c. \ \, Use the percentages in b. above to allocate the unit's salaries and wages costs.$
- d. After S & W costs of all operating line units are allocated, total the costs charged to each program and determine percentages of each program to total costs for all programs including administration.

^{1/} Allocation may be made as often as the agency desires, with a minimum of once a year at year-end.

^{2/} Salaries and wages costs is the actual amount paid for Salaries and Wages and staff benefits.

^{3/} Unit 2 personnel does not keep time sheets since all of their time is spent on one program.

^{4/} Units 5 and 7 are combined because their salary mix is the same.

Allocation Steps

- a. Charge to programs those costs which can be identified directly to a program. (Freight, consulting services, and equipment.)
- b. Allocate expenses by their allocation bases:
 - 1) Rent is allocated on the basis of square feet.
 - 2) Travel-in -state is allocated on the basis of actual salaries and wages cost charged to those programs which require its personnel to travel.
 - 3) All other operating expenses which cannot be identified directly to a program or allocated more accurately utilizing another allocation basis, is allocated on the basis of salaries and wages costs charged to programs. The calculation of these percentages is reflected in SAM Section 9244 Illustration 1.

Note:

1. This example shows different allocation bases used to allocate different types of costs. Agencies will use a basis which will allocate each type of cost equitably.
